

## Introducing Georgia State University's Legal Analytics Lab

---

The Robinson College of Business at Georgia State University (GSU), with support from GSU's College of Law, recently launched a groundbreaking legal analytics lab. The lab is housed in Robinson's Institute for Insight and brings together students, data scientists, and business and legal scholars to analyze millions of litigation filings and outcomes, corporate financial disclosures, patent applications and other legal documents to identify patterns and evaluate how the law operates to predict future outcomes.

The legal analytics lab will first focus on three subject areas: civil litigation, intellectual property, and compliance and corporate social responsibility. The lab welcomes strategic partners, including companies and law firms.

# Georgia State's Legal Analytics Lab Tackles Projects at the Intersection of Business, Law and Big Data.

## Current Projects

- For an international provider of insurance coverage to directors and officers, mining corporate disclosure filings and other materials to uncover predictors of securities class action lawsuit filings and litigation outcomes.
- With U.S. Department of Labor grant funding, using text mining and machine learning to analyze judges' decisions in cases where a worker's status as an employee or independent contractor is in dispute.
- Through the Labor Department grant, working with the Free Law Project to expand a free searchable archive of federal court opinions.
- Using networking mapping and analysis to understand a substantial increase in Fair Labor Standards Act litigation and its spread across jurisdictions.
- Using machine learning to identify fintech patent applications and to assess their impact on the financial services industry.

## Georgia State University

Ranked alongside MIT and Stanford as one of the most innovative institutions in the country, Georgia State University is on the rise. The university provides its world-class faculty and more than 50,000 students with unsurpassed connections to opportunities available in Atlanta, one of the 21st century's great global cities.

**4th most innovative university in the nation**

**8th best undergraduate teaching in the nation**

**11th most diverse university in the nation**

*U.S. News & World Report (2017)*

## Robinson College of Business

The Robinson College of Business is a community of students, educators and professionals who specialize in discovering insights that drive smarter business decisions. Home to more Georgia executives than any other university, our programs are designed to push beyond the classroom and offer experiences that bridge the gap between business education and the business world.
