HOW IT WORKS

Human

1 - Identify the provisions you want to look for

2 - Upload documents

5 - Review/edit the machine's summary

6 - Do an additional pass of documents

Machine

3 - Reads the documents

4 - Identifies the relevant provisions

LESSONS LEARNED

- General
 - Seriously, you want to print it?
 - Pricing
- Training
 - Use the RIGHT trainer(s) - Microsoft's Tay "experiment"
 - Train it to capture the right amount information
- Ownership
 - Who's information is it?

TO SUMMARIZE – MY THOUGHTS

- Machine assisted contract review will be the norm
- Machine learning...it should get better every day
- It will not completely replace human review (not in the near term at least!)
- It is as accurate as humans when looking for specific concepts it recognizes
